continuing education
activity by the Medical
Section at the
Goetheanum.

Anthroposophic Medical Grand Rounds

Research Updates for Core Therapeutic Topics:
English-language, online, worldwide

How Anthroposophic Medicine Contributes to the Field of Integrative Oncology

Wednesday, 19 February 2025

Hear research updates from an international
panel of experts, with presentations on:

- What's the best overview of mistletoe studies, and how they are designed? | Friedemann Schad, Germany
- Ways to better understand the MISTRAL study | Kathrin Wode, Sweden
- How AM contributions go far beyond mistletoe | Eran ben Ari, Israel
- Case report, highlighting the role of a comprehensive approach, with from Mark Hancock (U.S.) in conversation with Marion Debus (Switzerland)

Join us for the live presentation at 1600-1800 Central European time

2200-0000 ICT (Bangkok)

2030-2230 IST (Delhi)

1800-2000 MSK (Saint Petersburg)

1500-1700 GMT (London)

1200-1400 BRT (Sao Paulo)

1000-1200 EDT (New York)

0700-0900 PDT (San Francisco)

There is **no cost to join this first session** and **everyone is welcome, but you must register in order to receive the zoom link!**

[Registration here!](#) or:

Can't participate in the live session? Information for accessing the recording will be sent after the presentations to everyone who has registered (recording will be available for four weeks).

Help us keep this continuing education activity cost-free! Support this important initiative by making a donation (of any size) [here](#) or:

Kind regards
Adam Blanning MD

Coming later this 2025:

21 May: Highlights from AM Research Council Conference: "The Role of Warmth and Thermoregulation for Somatic and Mental Healthcare"
